Glossary

Suicide ideation - Consistent thoughts or mental preoccupation with suicide.
Completed suicide - Deliberate and intentional act of self-harm using a method that immediately results in death.
Attempted suicide - Deliberate and non-suicidal act of self-harm that fails to result in death.

Suicidal behaviors - Spectrum of self-destructive behaviors or tendencies that range from suicidal ideation to suicide.

Para suicide - Impulsive attempt or behavior as a response to emotional distress that is not suicidal.

- Violence is the intentional use of physical force or power, against oneself, another person, or against a group or community.
- Violence, may be physical, emotional, financial, or sexual. Even neglect is considered a type of violence.
